FRANKIE

GOES TO HOLLYWOOD

WELCOME TO THE PLEASUREGAME

You begin this extraordinary experience devoid of personality, an amorphous shape in the land of the mundane. Behind the facade of flying ducks and kitchen sinks however lies a giant web of drama and intrigue spun within the pleasuredome.

Scrutinise! Investigate! Probe! Objects you take for granted may be your passport to success; clues can be discovered everywhere. In this game of games you will need the skills of Arcade King, Adventurer, Super Sleuth, Mastermind and more. Frankie say Relax. Use the Power of Zap to build the equation (Pleasure, War |, Love ♥, and Faith ✝) to its peak when, if you respond brilliantly, you may enter the heart of the Pleasure Dome. Exclusive Ocean data-tune© twin cassette pack.

Screen examples are taken from Commodore 64 and Spectrum 48k versions.
